

Provider Notice

To: All Providers
From: Dan Eisenhauer, Director of Operations
Date: June 20, 2023
Subject: AD 23 111: Upgrade of the EDI claims compliance to Strategic National Implementation Process (SNIP) Level 4, effective 8/1/2023.

Summary:

PerformCare is upgrading its claims editing process to SNIP Level 4 to meet industry compliance standards. This will increase auto adjudication and reduce pending claims. Please ensure your 837 transactions are compliant with SNIP Level 4. Any claims not in compliance with SNIP Level 4 will be rejected and will not make it through the claim adjudication process

Background:

Incorporating SNIP validation into EDI processing allows for a clear assessment of the degree to which an EDI claim conforms to a schema outline in the EDI standards. Furthermore, employing more advanced levels of SNIP validation serves to validate the data within the EDI document, particularly in X12 Health Insurance Portability and Accountability Act (HIPAA) compliant EDI solutions. Below are the high-level constraints established by SNIP Validation Type,

- SNIP 1: validates the basic syntactical integrity of the EDI data
- SNIP 2: validates the number of times EDI segments, elements, and qualifiers appear in the document
- SNIP 3: validates that the sum of each claim line item is equal to the total claim amount
- SNIP 4: validates inter-segment value relationships: if element A has the value "X," then element B must have the value "Y"

Action Needed:

Effective 8/1/2023, all 837 claims should be compliant with SNIP level 4 standards, except for provider secondary identification numbers (provider legacy, commercial, state ID, UPIN, and location numbers).

Impact:

We are implementing the SNIP level 4 validation and edits to enhance our capability in supporting the front-end electronic claims intake process. These improvements will subsequently enhance the accuracy, security, and efficiency of the downstream claims adjudication process. However, we are bypassing one exception to SNIP level 4 edits to allow provider secondary identification numbers (Provider legacy, Commercial, State ID,

UPIN, and Location Numbers). Any claims not in compliance with SNIP level 4 will be rejected upfront and will not make it through the claim adjudication process.

Questions:

Providers can access the updated claims filing instruction at:
