

MEMORANDUM

TO: All Behavioral Health Managed Care Organizations (BH-MCOs),
Behavioral Health Primary Contractors

FROM: 
Jennifer S. Smith
Deputy Secretary
Office of Mental Health and Substance Abuse Services (OMHSAS)

SUBJECT: Opioid Centers of Excellence

DATE: 07-13-2023

PURPOSE:

The purpose of this memorandum is to provide guidance regarding the responsibilities of BH-MCOs regarding coverage of state plan services rendered by providers designated as Specialty Type 232 - Opioid Centers of Excellence (COEs), as set forth in Appendix G of the of the Behavioral Health (BH) HealthChoices (HC) *Program Standards and Requirements (PS&R)*.

BACKGROUND:

On January 1, 2019, the Department of Human Services (DHS) implemented a State Directed Payment Arrangement requiring BH-MCOs to pay \$277.22 per member per month for services rendered by COEs using procedure code G9012. On June 7, 2022, DHS received approval of a State Plan Amendment, effective January 1, 2022, adding COE care management services to the Pennsylvania Medical Assistance (MA) Program State Plan. This State Plan Amendment was announced via MA Bulletin 01-22-02 on February 14, 2022 and via Public Notice at 52 Pa.B. 98 on January 1, 2022. As a result of this approval, DHS allowed the State Directed Payment Arrangement to expire on December 31, 2022. Appendix G was updated to reflect COE services as state plan services no longer subject to a State Directed Payment Arrangement.

PAYMENT FOR COE SERVICES:

Claims for COE care management services, as defined in the State Plan, may only be paid to providers enrolled in the MA Program as Provider Specialty Type 232 – Opioid Center of Excellence, as described in MA Bulletin 01-20-08/08-2011/11-20-02/19-20-01/21-20-01/31-20-08. The BH-MCO must require that a COE provides care management services in accordance with the State Plan, the COE's service description approved by DHS, and in accordance with the terms of Appendix G in order to receive payment for those services. DHS will provide the BH-MCO with approved services descriptions for COEs that contract with them.

For Members with Opioid Use Disorder who are receiving services from COEs that are also enrolled in the MA Program as Federally Qualified Health Centers (FQHCs), the BH-MCO will pay the Provider Type 08, Clinic, when the care management service is billed on a claim for a four-digit Service Location Code that is enrolled as Provider Specialty 232, Opioid Center of Excellence. The BH-MCO will make payment to the service location enrolled as Provider Specialty 080, FQHC, in accordance with Section II.7.E.1 (*Financial and Reporting Requirements-Claims Payment and Processing-Payment to Providers*) of the BH HC PS&R.

Any member of a COE's care management team may provide the state plan care management services above if they are appropriately licensed or credentialed to do so. The care management team must include a Certified Recovery Specialist credentialed by the Pennsylvania Certification Board, and may include peer navigators, nurses, social workers, physicians, psychiatrists, care managers, supervisors, and other provider types.

The BH-MCO should pay for COE services, which are state plan services, when the COE has done the following:

1. During the first calendar month a Member is engaged with the COE, the COE has provided and documented, in addition to the state plan COE service, at least one service for the treatment of a condition associated with an ICD-10 diagnosis code related to OUD, unless the COE can demonstrate that a service for the treatment of a condition associated with an ICD-10 diagnosis code related to OUD has been provided within the month by a provider that made the referral to the COE.
2. The COE has documented the encounter within the Member's electronic health record, including the following information:

- a. Date of encounter
 - b. Location of encounter
 - c. Identity of the individual employed by the COE with whom the Member met
 - d. Duration of encounter
 - e. Description of service provided during the encounter
 - f. Next planned activities that the COE and the Member will undertake
3. The state plan COE service is being submitted is not duplicative, overlapping, or redundant of other care or case management services for which the BH-MCO has already paid on a Member's behalf.
 4. The COE has obtained written Member consent to share OUD-related information with the Member's BH-MCO, Physical HealthChoices MCO (PH-MCO), or Community HealthChoices MCO (CHC-MCO) consistent with state and federal laws and regulations for the purpose of coordinating comprehensive services that address the Member's physical and behavioral needs and any needs related to social determinants of health.

NEXT STEPS:

BH-MCOs should enter into agreements with providers designated as Specialty Type 232-Opioid Center of Excellence to satisfy Network Adequacy requirements found in the BH HC PS&R and ensure for the provision of state plan services to Members. The BH-MCO should update any billing and auditing systems or processes to align with the requirements of Appendix G and this Memorandum.

This Memo obsoletes MCOPS Memo # 02/2019-002.
